5th World Conference on Research Integrity

Conference theme

The 5th World Conference on Research Integrity will explore the challenges of promoting transparency and accountability in research and the consequences of the failure to do so, with the overall goal of developing an evidence-based agenda for addressing the various lapses of integrity that seem to have become an endemic problem in research today.

Program structure

Pre-conference activities
Plenary and concurrent sessions
Interactive poster sessions and exhibitor space
Ample opportunities for interaction between participants
Time for informal contact during breaks and the social events

Important dates

- September 15, 2016
  Deadline abstract submission
- November 15, 2016
  Notification of acceptance
- March 1, 2017
